DETAILED ACTION

Election/Restrictions

1. This application contains claims 11-22 drawn to an invention nonelected with traverse in the reply filed on 09/02/2003. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 3-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Reichel et al. (DE 2454397), for reasons cited in the previous action.

Response to Arguments

4. Applicant's arguments filed 04/16/2004 have been fully considered but they are not persuasive.

While applicant argues that Reichel et al. teaches the preparation of the cationic emulsifier in "an organic solvent" and that "water containing solvents carboxylic acids are [not] disclosed", it is noted that the present claims are to cationic aqueous polymer

Art Unit: 1713

dispersions comprising an emulsion polymerization product of a monomer mixture polymerized in the presence of an emulsifier polymer of at least one styrene monomer and at least one tertiary amino group monomer. While the claims recited that the polymeric emulsifier is prepared by solution polymerization in the presence of a saturated C1-C6- carboxylic acid, the claims are to the final cationic aqueous polymer dispersion product and not the process for preparing the product or the process for preparing the emulsifier used in preparing the product. The polymeric emulsifier used in the product dispersion is still the same cationic polymeric emulsifier used in Reichel et al., regardless of the solvent used in making it.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
